

## REMARKS

By this Preliminary Amendment applicant has amended the specification by incorporating an Abstract of the Disclosure. The added abstract is supported by the abstract of the International Application to which the present national application claims priority. As required, a copy of the abstract is also attached hereto on a separate sheet of paper. The claims have also been amended by canceling claims 1-18 and adding new claims 19-36. The new claims are supported by the original claims and have simply been redrafted to remove multiple dependencies and address other formal matters to place the claims in a more conventional format for prosecution in the United States. For the foregoing reasons, applicant respectfully submits that the amendments to the specification and the claims do not introduce new matter, and entry thereof is respectfully requested.

In view of the foregoing, claims 19-36 are presented for the Examiner's consideration on the merits.

DATED this 22 day of June 2004.

Respectfully submitted,
